NEXTGEN VENTURES

Brand guidelines.

Backing young Australian founders before anyone else to build global unicorns.

IDENTITY / DIGITAL EXPERIENCE / REUSABLE ASSETS

A practical kit based on the website as implemented. Recommendations are identified separately from observed website styles.

Young ambition. Taken seriously.

The brand pairs ambitious founder language with real people, direct invitations and a distinctive dark-blue digital world.

EXISTING POSITIONING

A first-cheque venture fund.

The website speaks to young Australian founders and prospective investors. It presents NextGen as an early believer: approachable, committed and ready to act before others.

What must stay recognisable

- Deep navy and vivid blue
- Geometric, confident type
- Actual founders and community
- The paper-plane mark and blue poppies

RECOMMENDED WRITING GUIDANCE

Direct

Use plain verbs and short invitations. Keep the next step obvious.

Founder-first

Speak to ambition with warmth. Be clear about how the team helps.

Specific

Use real names, examples and evidence. Avoid invented proof or inflated claims.

Existing CTA language: "Share your idea", "Founders - Get in touch", "LP Enquiry".

One mark. Clear recognition.

Use the original horizontal lockup as the primary signature. Kit variants preserve its geometry.

NEXTGEN VENTURES

PRIMARY WHITE LOCKUP ON NAVY

NEXTGEN VENTURES

Symbol-only derivative
Use only where the brand is already identified.

RECOMMENDED USAGE RULES

Clear space: leave at least one symbol height around the lockup. Website reference size: 193 x 20px. Recommended digital minimum: 160px wide, checked at actual display size.

Keep aspect ratio intact. Do not stretch, rotate, add shadows, retype the wordmark, or place the mark over busy photographs. Navy and symbol-only assets are derived kit variants.

Navy is the canvas. Blue acts.

Keep the existing colour roles distinct. These are digital RGB values, not print colour specifications.

Navy

#000033

RGB 0 / 0 / 51

Primary canvas

Action blue

#0059FF

RGB 0 / 89 / 255

Founder actions

Pale white

#EFF8FF

RGB 239 / 248 / 255

Header and high contrast type

Panel

#151154

RGB 21 / 17 / 84

Layered surfaces

SUPPORTING WEBSITE VALUES

- Header action — #2454FF
- Section accent — #385FFF
- Body copy — #EDEDED
- Investor action — #141414

Three roles. One coherent voice.

Use the actual website families. Do not replace geometric headlines with a generic display face.

SPACE GROTESK / DISPLAY AND SOURCE ACTIONS

Backing young Australian founders.

Display: 40 / 32 / 26px | Bold 700 | Line-height 120%

URBANIST / SECTION TITLES AND NAVIGATION

Your First Cheque and Beyond

Section titles: 30 / 24 / 19px | Bold 700 | Navigation: 16px / 500

INTER / READING COPY

To build a legendary company, it takes a village. Our team, Mitch, and Jerry are here for you 24/7 and 365 days a year.

Body: 16px desktop, 14px below desktop. Keep comfortable line lengths and the source page rhythm.

Show the people behind ambition.

The website earns credibility through real founders, conversations and community - not generic technology stock.

Conversations in context

Community and belonging

Founders as individuals

The blue poppy is a signature asset.

Keep the existing artwork, colour and organic silhouette. It supports the "garden of tall poppies" idea; use it purposefully rather than as a repeated background texture.

Recommended image treatment: natural skin tones, candid energy and clear focal subjects. Preserve intentional crops and avoid text over visually busy areas.

Make the next step unmistakable.

Preserve source action colours, restrained corner rounding and simple, readable controls.

Looking for investment?

If you're a young Aussie founder bursting with ambition, we want to hear from you.

Share your idea

PRIMARY ACTION / 6PX RADIUS

Looking to invest?

Keep investor enquiries visibly distinct from founder applications.

LP Enquiry

SECONDARY INVESTOR ACTION

Observed dimensions
Buttons: 50px reference height; 14px labels.
Photos: 8px radius. Feature cards: 12px radius.

States to preserve
Clear hover treatment, visible keyboard focus and a labelled menu toggle. The focus ring uses #81B7FF with a 2px outline and 5px offset.

Consistent character at every size.

Use the source layouts as the authority. Scale hierarchy and spacing; do not compress a desktop page into a phone.

Desktop	1100px and above	1100px maximum content container; inline navigation.
Tablet	810-1099.98px	32px display headings; navigation collapses to the menu.
Mobile	Up to 809.98px	26px display headings; stacked content and actions.

MOTION

The two photo strips move in opposing directions. The replica uses 50s / 58s linear loops, pauses on hover and stops for reduced-motion preferences. Keep reading content visible without entrance-animation delays.

RECOMMENDED ACCESSIBILITY RULES

White on action blue: 5.4:1. Pale white on navy: 18.6:1. Target 4.5:1 for normal text and 3:1 for large text. Use pale copy for small text on navy; do not assume every blue-on-navy label passes.

A kit built to be used.

Keep the guide, assets and implementation tokens together. This is a website-derived working standard, not an independently approved corporate identity manual.

INCLUDED IN THE ASSET BUNDLE

01 Logos

White and navy horizontal SVG lockups; white and navy symbol-only SVGs.

02 Digital tokens

CSS custom properties and JSON values for colour, type, radius and layout.

03 References

Source URLs, font asset references and the existing website design-system record.

Before anything goes live

- ☐ Original mark, proportion and contrast
- ☐ Correct type family for each role
- ☐ Existing colour roles preserved
- ☐ Real imagery with intentional crops
- ☐ Mobile and keyboard behaviour checked
- ☐ Clear CTA and accurate factual copy

SOURCE AND STATUS

Source: nextgenventures.com.au and the implemented Next.js replica, inspected 24 October 2026. Logo clear space, minimum size, copy guidance and accessibility usage rules are recommendations. Font binaries and photographic image files are not redistributed in this bundle; their sources remain recorded with the website.
